

Three Dimensional Design

A Display of Work from the BA(Hons) course, Year 1

7 May – 28 May 2009

This course covers a wide range a wide range of topics, from sculpture, through model making, to crafts and product design. It encourages a broad outlook with options to investigate a wide variety of materials and 3D disciplines.

The display shows students' work from the semester one unit 'Material Experimentation' and some from the semester two unit 'Design Considerations'.
