I use the electronic journals all the time as they are very cost effective i.e. I do not have to drive to the library from Eastney, I do not have to ask for photocopying and no inter-library loans. However, at present the major marine journals (see above) are not accessible and they must be costing a fortune in inter library loans.

Subscription arrangements should be flexible i.e. allow the customer to pick and mix titles as opposed to tying them to packages that often include many unwanted titles.
