

## **Transcript for borrowing your library books video**

Another deadline is looming and it's time to get some library books out!

When you have got the books you need, you can borrow them to take home using our self-service kiosks

Select "Issue", insert your card in the smaller slot, then place the books in the blue space. You just need to wait until the green ticks appear against each item. After that, they're all yours.

You can choose whether you would like a receipt to remind you what you have borrowed and when it is due back. Alternatively, you can see all the books you have on loan, and details of any you have borrowed before, by checking My Account – either on the Library website or on a self-service kiosk.
